PROJECT OBJECTIVES

Increase Weekend Sales

Achieve +15% growth in weekend revenue by Q2 2025 through targeted campaigns, events, and loyalty programs.

Improve Profitability

Identify and address underperforming product lines across 50 stores. Target Shoes margin uplift from 36% to 42%.

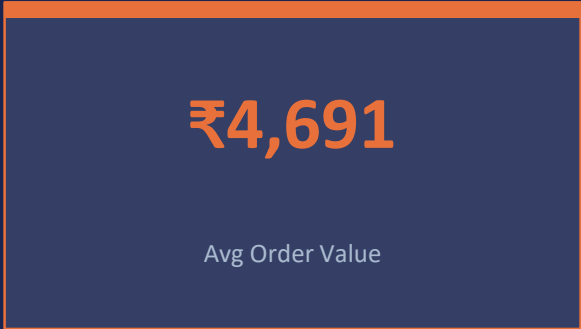

Optimize Discounting

Redesign discount strategy to protect margins. Current high-discount (>25%) transactions show only 25.5% margin vs 46.5% at no discount.

KEY KPIs TRACKED: Total Sales Revenue • Average Order Value (AOV) • Profit Margin % • Units Sold • Discount Impact • Weekend vs Weekday Ratio

EXECUTIVE DASHBOARD — 2-YEAR PERFORMANCE SUMMARY

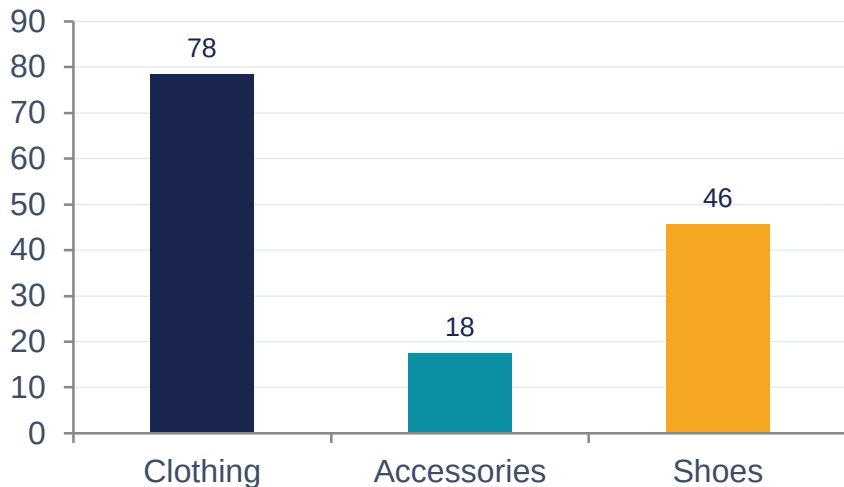

Payment Mix

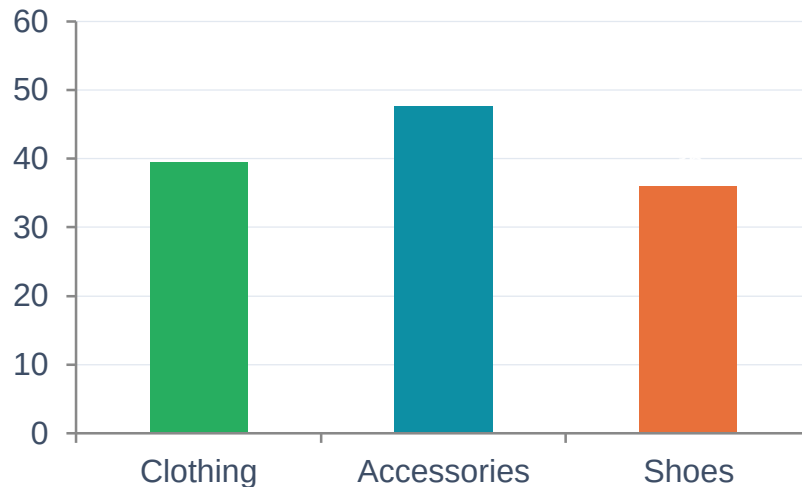

Q1: PRODUCT CATEGORY PERFORMANCE

Revenue by Category (₹ Cr)

Profit Margin by Category (%)

🏆 Clothing Leads Revenue

Contributes ₹78.4 Cr (55.4% of total) with strong unit volume at 332K units.

💎 Accessories Highest Margin

47.7% profit margin — best in class. Scale this category with new SKUs and online bundles.

👟 Shoes: Revenue vs Margin Gap

₹45.7 Cr revenue but only 36% margin. Review supplier costs and reduce deep discounting.

Q2: WEEKEND vs WEEKDAY SALES ANALYSIS

WEEKDAYS

₹111.6 Cr

79% of total revenue

Avg. ₹21.4L / day

48%
GAP

WEEKENDS

₹30 Cr

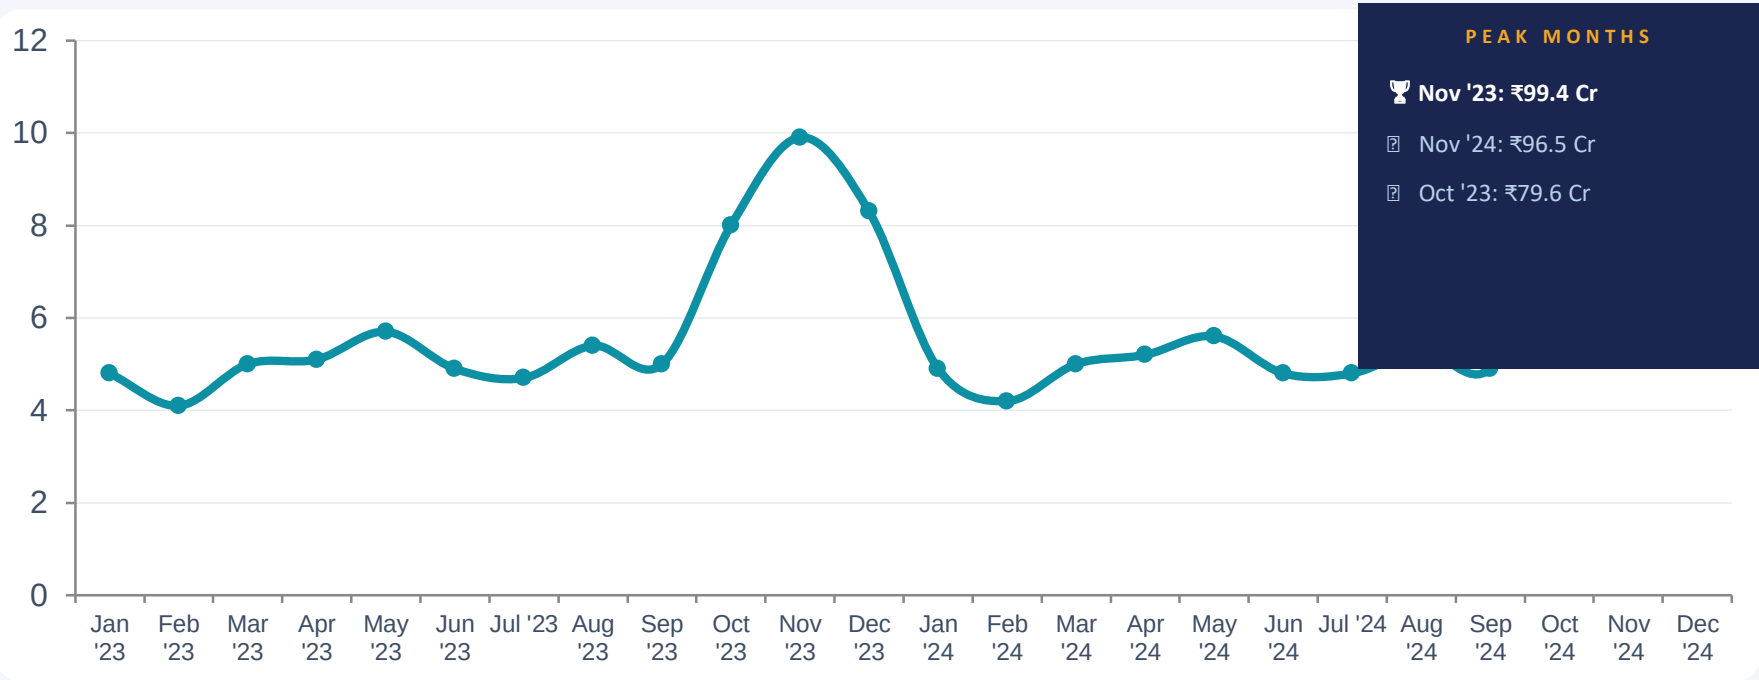

21% of total revenue

Avg. ₹14.4L / day

KEY OBSERVATIONS & RECOMMENDATIONS

- 📉 Weekends generate only 21% of revenue despite being 28% of days — a 48% revenue-per-day shortfall.
- 🏠 Festive season (Oct–Dec) sees a partial weekend uplift. Replicate this through in-store events, flash sales, and influencer tie-ups every weekend.
- 👤 Weekend visitors are mostly window shoppers; target with "Weekend Exclusive" pricing and loyalty double-points to convert them into buyers.
- 📱 Push mobile notifications Thursday–Friday for weekend deals. Digital payment channel shows highest growth — leverage for app-exclusive weekend offers.

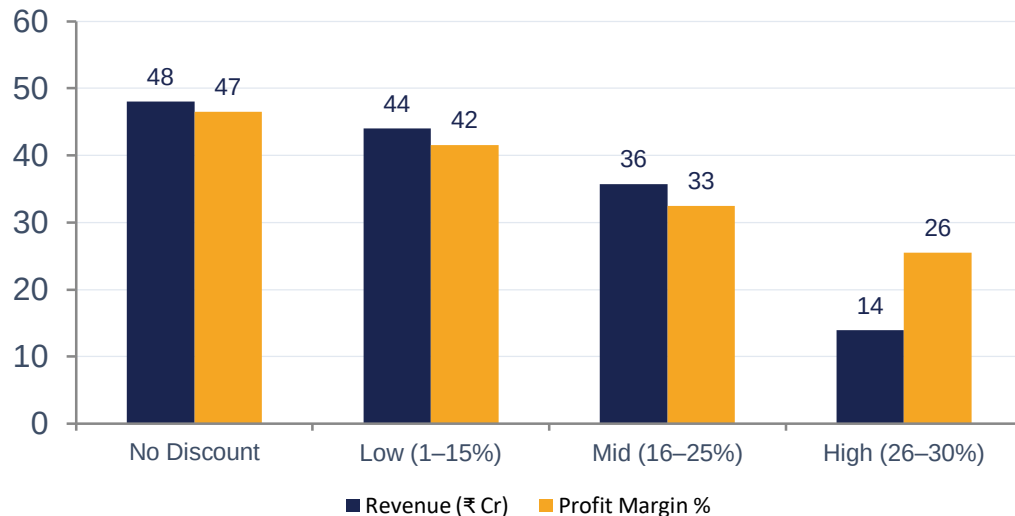

MONTHLY REVENUE TREND — JAN 2023 TO DEC 2024

SEASONAL INSIGHT: Oct–Dec festive surge (Navratri, Dussehra, Diwali, Christmas) contributes ~33% of annual revenue. Q1 (Jan–Mar) and mid-monsoon (Jul–Aug) are weakest periods — ideal for clearance promotions.

Q3: IMPACT OF DISCOUNTING ON PROFIT MARGINS

Revenue & Margin by Discount Tier

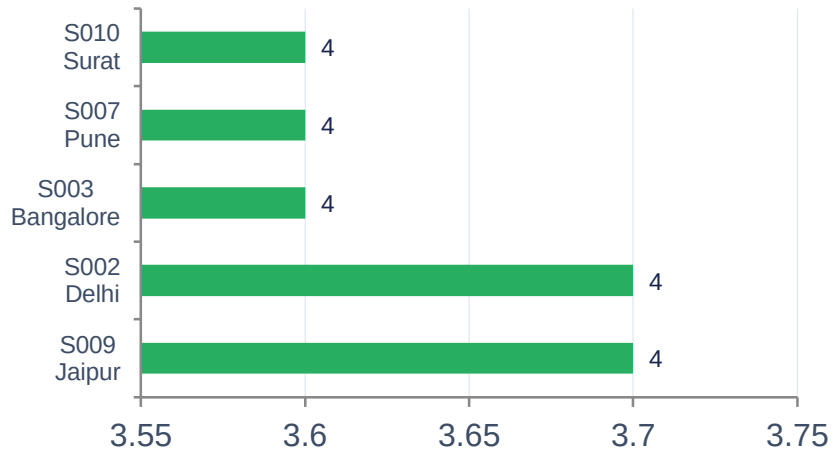

Margin Erosion Analysis

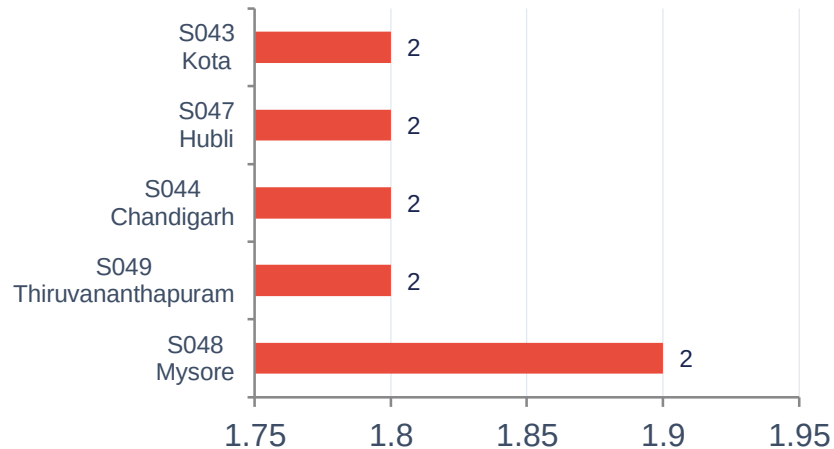

DISCOUNT POLICY RECOMMENDATION: Cap promotional discounts at 20% to protect a minimum 32% margin floor. High discounts (>25%) erode ₹3.5 Cr in potential profit vs no-discount scenario. Introduce "smart discount" segmentation: New customers get 15% welcome discount; Returning customers get loyalty rewards instead of %-off.

Q4: STORE PERFORMANCE — TOP 5 & BOTTOM 5

🏆 Top 5 Stores

⚠️ Bottom 5 Stores

⚠️ Performance Gap: Top stores average ₹3.6 Cr vs Bottom stores ₹1.8 Cr — a 100% gap. Bottom stores are in Tier-2/3 cities with lower footfall and limited brand awareness.

ROOT CAUSES & QUICK WINS FOR UNDERPERFORMERS

📍 Tier-3 city locations with low brand visibility

Fix: Hyperlocal digital campaigns

📦 Limited product assortment vs top stores

Fix: Expand fast-moving SKUs

👥 Higher staff turnover in smaller markets

Fix: Incentive schemes + training

💳 Lower digital payment adoption

Fix: QR-pay cashback promotions
